

Antibiotics for uncomplicated LRTI in Older Adults

WE'RE RECRUITING

YOUR HEALTH, OUR PRIORITY

- DO YOU HAVE A CHEST INFECTION?
- AGED 65 or over?
- Interested in **ANTIBIOTIC RESISTANCE** and the implications?

YOU MAY BE ELIGIBLE FOR THE AFLOAT TRIAL!

We're looking for individuals to join a clinical trial to see if antibiotics really work for chest infections which are often caused by viruses.

- This could help fight antibiotic resistance
- Inform and enhance health management guidelines and improve patient care .

INTERESTED?

Please ask about the AFLOAT study at reception or during your consultation
